

# What makes our Pole Solution different from other poles?

## Adapts to every boat - stainless steel quality !!

← Radar top plate specific to your radar with provision for up to three antenna mounts.

← 2½" Upper Section available as:

- pivot radar top            37" exposed height
- fixed radar top            37" exposed height
- wind generator    37" exposed below blades

Accessories that can be added now or later.

- stern light bracket (for Aqua Signal 40)
- outboard lifting assembly in 15", 20" or 25" reach
- First Mate cam cleat for stern rail

← Clamps rotate to accommodate desired location of strut assembly. The black delrin sleeve assembly ensures a snug fit and eliminates vibration.

← Struts available in 5 lengths - with deck or stern rail mounting hardware.

19" reducing to 11"	} Our unique method of adjustment requires <b>no drilling!!</b>
